An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 4 at line 1 after "assembly of Claim", delete "3" and substitute – 1 -- therefor.

In claim 5 at line 1 after "assembly of Claim", delete "3" and substitute – 1 -- therefor.

The above amendment was made in order to correct the dependency of claims 4 and 5, which were originally depended upon claim 3 that was cancelled and whose limitations were incorporated into independent claim 1.

The following is an examiner's statement of reasons for allowance: the prior art does not shown nor make obvious an air conditioner control assembly including an electrical plug having relay controlled by remote thermostat and circuit breaker for interrupting the supply between when the air conditioner power usage exceeds a threshold level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
